PUBLIC User's Guide

In order to assist both the legal profession and the layman in obtaining the maximum benefit from the Mississippi Code of 1972 Annotated, a User's Guide has been included in the main volume. This guide contains comments and information on the many features found within the Code intended to increase the usefulness of the Code to the user.

Annotations

Case annotations are included based on decisions of the State and federal courts in cases arising in Mississippi. Annotations to collateral research references are also included.

To better serve our customers by making our annotations more current, LexisNexis has changed the sources that are read to create annotations for this publication. Rather than waiting for cases to appear in printed reporters, we now read court decisions as they are released by the courts. A consequence of this more current reading of cases, as they are posted online on LexisNexis, is that the most recent cases annotated may not yet have print reporter citations. These will be provided, as they become available, through later publications.

This publication contains annotations taken from decisions of the Mississippi Supreme Court and the Court of Appeals and decisions of the appropriate federal courts. These cases will be printed in the following reporters:

- Southern Reporter, 3rd Series
- United States Supreme Court Reports
- Supreme Court Reporter
- United States Supreme Court Reports, Lawyers' Edition, 2nd Series
- Federal Reporter, 4th Series
- Federal Supplement, 3rd Series
- Federal Rules Decisions
- Bankruptcy Reporter

Additionally, annotations have been taken from the following sources:

- American Law Reports, 5th Series
- American Law Reports, Federal 2nd
- Mississippi College Law Review
- Mississippi Law Journal

Finally, published opinions of the Attorney General and opinions of the Ethics Commission have been examined for annotations.

Amendment Notes

Amendment notes detail how the new legislation affects existing sections.

Editor's Notes

Editor's notes summarize subject matter and legislative history of repealed sections, provide information as to portions of legislative acts that have not been codified, or explain other pertinent information.

1. In general.

School district and a city had standing to sue a county board of supervisors to challenge its approval of tax assessments on a company’s leasehold interest in property because they experienced an adverse effect from the board’s conduct, and that adverse effect was different from that ex-

perienced by the general public; both the district and the city had statutory duties associated with the taxes, and their funding was reduced by any allegedly improperly low tax assessment. *Pascagoula-Gautier Sch. Dist. v. Bd. of Supervisors*, 212 So. 3d 742, 2016 Miss. LEXIS 437 (Miss. 2016).

§ 37-61-8. State Board of Education to prescribe method of examination of school district ending fund balances.

The State Board of Education shall adopt rules and regulations prescribing the method by which school district ending fund balances are examined for fiscal stability. Failure to comply with any of the rules and regulations established by the State Board of Education with regard to ending fund balances shall constitute a violation of the Mississippi Public School Accountability Standards.

HISTORY: Laws, 2010, ch. 486, § 1; Laws, 2012, ch. 345, § 1; Laws, 2015, ch. 363, § 1, eff from and after July 1, 2015.

Amendment Notes — The 2015 amendment rewrote the section to remove the requirement that school districts prepare and submit a plan to reduce costs under certain circumstances, and to require the State Board of Education to adopt rules and regulations prescribing the method by which school district ending fund balances are examined for fiscal stability.

§ 37-61-33. Education Enhancement Fund; appropriations from fund; certain funds from working cash-stabilization reserve fund transferred to education enhancement fund; school district procurement cards.

(1) There is created within the State Treasury a special fund to be designated the "Education Enhancement Fund" into which shall be deposited all the revenues collected pursuant to Sections 27-65-75(7) and (8) and 27-67-31(a) and (b).

(2) Of the amount deposited into the Education Enhancement Fund, Sixteen Million Dollars (\$16,000,000.00) shall be appropriated each fiscal year to the State Department of Education to be distributed to all school districts. Such money shall be distributed to all school districts in the proportion that

the average daily attendance of each school district bears to the average daily attendance of all school districts within the state for the following purposes:

(a) Purchasing, erecting, repairing, equipping, remodeling and enlarging school buildings and related facilities, including gymnasiums, auditoriums, lunchrooms, vocational training buildings, libraries, teachers' homes, school barns, transportation vehicles (which shall include new and used transportation vehicles) and garages for transportation vehicles, and purchasing land therefor.

(b) Establishing and equipping school athletic fields and necessary facilities connected therewith, and purchasing land therefor.

(c) Providing necessary water, light, heating, air-conditioning and sewerage facilities for school buildings, and purchasing land therefor.

(d) As a pledge to pay all or a portion of the debt service on debt issued by the school district under Sections 37-59-1 through 37-59-45, 37-59-101 through 37-59-115, 37-7-351 through 37-7-359, 37-41-89 through 37-41-99, 37-7-301, 37-7-302 and 37-41-81, or debt issued by boards of supervisors for agricultural high schools pursuant to Section 37-27-65, if such pledge is accomplished pursuant to a written contract or resolution approved and spread upon the minutes of an official meeting of the district's school board or board of supervisors. The annual grant to such district in any subsequent year during the term of the resolution or contract shall not be reduced below an amount equal to the district's grant amount for the year in which the contract or resolution was adopted. The intent of this provision is to allow school districts to irrevocably pledge a certain, constant stream of revenue as security for long-term obligations issued under the code sections enumerated in this paragraph or as otherwise allowed by law. It is the intent of the Legislature that the provisions of this paragraph shall be cumulative and supplemental to any existing funding programs or other authority conferred upon school districts or school boards. Debt of a district secured by a pledge of sales tax revenue pursuant to this paragraph shall not be subject to any debt limitation contained in the foregoing enumerated code sections.

(3) The remainder of the money deposited into the Education Enhancement Fund shall be appropriated as follows:

(a) To the State Department of Education as follows:

(i) Sixteen and sixty-one one-hundredths percent (16.61%) to the cost of the adequate education program determined under Section 37-151-7; of the funds generated by the percentage set forth in this section for the support of the adequate education program, one and one hundred seventy-eight one-thousandths percent (1.178%) of the funds shall be appropriated to be used by the State Department of Education for the purchase of textbooks to be loaned under Sections 37-43-1 through 37-43-59 to approved nonpublic schools, as described in Section 37-43-1. The funds to be distributed to each nonpublic school shall be in the proportion that the average daily attendance of each nonpublic school bears to the total average daily attendance of all nonpublic schools;

(ii) Seven and ninety-seven one-hundredths percent (7.97%) to assist

the funding of transportation operations and maintenance pursuant to Section 37-19-23; and

(iii) Nine and sixty-one one-hundredths percent (9.61%) for classroom supplies, instructional materials and equipment, including computers and computer software, to be distributed to all eligible teachers within the state through the use of procurement cards. Classroom supply funds shall not be expended for administrative purposes. On or before September 1 of each year, local school districts shall determine and submit to the State Department of Education the number of teachers eligible to receive an allocation for the current year. For purposes of this subparagraph, "teacher" means any employee of the school board of a school district, or the Mississippi School for the Arts, the Mississippi School for Math and Science, the Mississippi School for the Blind or the Mississippi School for the Deaf, who is required by law to obtain a teacher's license from the State Department of Education and who is assigned to an instructional area of work as defined by the department, but shall not include a federally funded teacher. It is the intent of the Legislature that all classroom teachers shall utilize these funds in a manner that addresses individual classroom needs and supports the overall goals of the school regarding supplies, instructional materials, equipment, computers or computer software under the provisions of this subparagraph, including the type, quantity and quality of such supplies, materials and equipment. Classroom supply funds allocated under this subparagraph shall supplement, not replace, other local and state funds available for the same purposes. The State Board of Education shall develop and promulgate rules and regulations for the administration of this subparagraph consistent with the above criteria, with particular emphasis on allowing the individual teachers to expend funds as they deem appropriate. Effective with the 2013-2014 school year, the local school board shall require each school to issue procurement cards provided by the Department of Finance and Administration under the provisions of Section 31-7-9(1)(c) for the use of teachers and necessary support personnel in making instructional supply fund expenditures under this section, consistent with the regulations of the Mississippi Department of Finance and Administration pursuant to Section 31-7-9. Such procurement cards shall be issued at the beginning of the school year and shall be issued in equal amounts per teacher determined by the total number of qualifying personnel and the current state appropriation for classroom supplies with the Education Enhancement Fund. Such cards will expire on a pre-determined date at the end of each school year. All unexpended amounts will be carried forward, combined with the following year's allocation of Education Enhancement Fund instructional supplies funds and reallocated for the following year;

(b) Twenty-two and nine one-hundredths percent (22.09%) to the Board of Trustees of State Institutions of Higher Learning for the purpose of supporting institutions of higher learning; and

(c) Fourteen and forty-one one-hundredths percent (14.41%) to the Mississippi Community College Board for the purpose of providing support to community and junior colleges.

(4) The amount remaining in the Education Enhancement Fund after funds are distributed as provided in subsections (2) and (3) of this section shall be appropriated for other educational needs.

(5) None of the funds appropriated pursuant to subsection (3)(a) of this section shall be used to reduce the state's General Fund appropriation for the categories listed in an amount below the following amounts:

(a) For subsection (3)(a)(ii) of this section, Thirty-six Million Seven Hundred Thousand Dollars (\$36,700,000.00);

(b) For the aggregate of minimum program allotments in the 1997 fiscal year, formerly provided for in Chapter 19, Title 37, Mississippi Code of 1972, as amended, excluding those funds for transportation as provided for in paragraph (a) of this subsection.

(6) Any funds appropriated from the Education Enhancement Fund that are unexpended at the end of a fiscal year shall lapse into the Education Enhancement Fund, except as otherwise provided in subsection (3)(a)(iii) of this section.

The 2016 amendment inserted "or the Mississippi School for the Arts, the Mississippi School for Math and Science, the Mississippi School for the Blind or the Mississippi School for the Deaf" in the fourth sentence of (3)(a)(iii).

The 2020 amendment, effective July 8, 2020, rewrote former (4), (4)(a) and (b), which read: "(4) The amount remaining in the Education Enhancement Fund after funds are distributed as provided in subsections (2) and (3) of this section shall be disbursed as follows: (a) Twenty-five Million Dollars (\$25,000,000.00) shall be deposited into the Working Cash-Stabilization Reserve Fund created pursuant to Section 27-103-203(1), until the balance in such fund reaches the maximum balance of seven and one-half percent (7-1/2%) of the General Fund appropriations in the appropriate fiscal year. After the maximum balance in the Working Cash-Stabilization Reserve Fund is reached, such money shall remain in the Education Enhancement Fund to be appropriated in the manner provided for in paragraph (b) of this subsection. (b) The remainder shall be appropriated for other educational needs."

CHAPTER 63.**EDUCATIONAL TELEVISION****§ 37-63-1. Declaration of legislative purpose and public policy.****OPINIONS OF THE ATTORNEY GENERAL**

It is clear, under Miss. Code Sections 37-63-1 et seq., that Mississippi Authority for Educational Television has responsibility for administration, operation, con-

trol and supervision of educational television and radio in Mississippi. Ray, Jan. 11, 1994, A.G. Op. #93-0854.

§ 37-63-9. Acquisition and operation of facilities.**OPINIONS OF THE ATTORNEY GENERAL**

CHAPTER 67.

DISTANCE LEARNING COLLABORATIVE ACT OF 2016

Sec.

37-67-1. Distance Learning Collaborative Act of 2016; definitions; voluntary distance learning grant program.

§ 37-67-1. Distance Learning Collaborative Act of 2016; definitions; voluntary distance learning grant program.

(1) This section shall be known and may be cited as the "Distance Learning Collaborative Act of 2016."

(2) As used in this section:

(a) "Distance learning" means a method of delivering education and instruction on an individual basis to students who are not physically present

in a traditional setting such as a classroom. Distance learning provides access to learning when the source of information and the learners are separated by time and distance, or both. Distance learning courses that require a physical on-site presence for any reason other than taking examinations may be referred to as hybrid or blended courses of study.

(b) "Department" means the Mississippi Department of Education.

(c) A "distance learning collaborative" means a school or schools that write and submit an application to participate in the voluntary distance learning program. A distance learning collaborative is comprised, at a minimum, of a public school district, and may include an agency or other nonprofit organization approved by the State Department of Education to provide distance learning resources.

(d) A "lead partner" is a public school district or other nonprofit entity with the instructional expertise and operational capacity to manage the Distance Learning Collaborative Program as described in the approved application for funds. The lead partner serves as the fiscal agent for the collaborative and shall disburse awarded funds in accordance with the collaborative's approved application. The lead partner ensures that the collaborative adopts and implements the Distance Learning Collaborative Program consistent with the standards adopted by the State Board of Education. The public school district shall be the lead partner if no other qualifying lead partner is selected.

(3) Effective with the 2016-2017 school year, the Mississippi State Department of Education shall establish a voluntary distance learning grant program which shall be a collaboration among the entities providing distance learning services for students. The Distance Learning Collaborative Program shall provide financial assistance to encourage and improve distance learning education services in rural areas through the use of telecommunications, computer networks and related advanced technologies to be used by students, teachers and rural residents. Grants are for projects where the benefit is primarily delivered to end users who are not at the same location as the source of the education service.

(4) Distance Learning Collaborative Grants may be used to:

(a) Acquire the following types of equipment: (i) computer hardware and software; (ii) audio and video equipment; (iii) computer network components; (iv) terminal equipment; (v) data terminal equipment; (vi) inside wiring; (vii) interactive video equipment; and (viii) other facilities that further distance learning technology services.

(b) Acquire instructional programming for distance learning programs.

(c) Acquire technical assistance and instruction for using eligible equipment.

(d) The cost of tuition and fees for students to participate over and above the available federal Perkins Loans or Stafford Loans which are loaned directly to qualifying students to assist in covering the cost of distance learning funding.

(e) Any interest charges that accumulate during a student's degree program for the utilization of distance learning services.

(5) Subject to the availability of funds appropriated therefor, the State Department of Education shall administer the implementation, monitoring and evaluation of the voluntary Distance Learning Collaborative Program, including awards and the application process. The department shall establish a rigorous and transparent application process for the awarding of funds. Lead partners shall submit the application on behalf of their distance learning collaborative. The department will establish monitoring policies and procedures that shall include at least one (1) site visit per year. The department will provide technical assistance to collaboratives and their providers to improve the quality of distance learning services. The department will evaluate the effectiveness of each distance learning collaborative.

(6) Distance Learning Collaborative Program funds shall be awarded to distance learning collaboratives whose proposed programs meet the program criteria established by the State Board of Education which shall include the following:

(a) Distance learning programs shall be approved and registered with the State Department of Education and course content must be aligned with state standards.

(b) Distance learning instructors shall complete professional development training in online methodology and technical aspects of web-based instruction, and may be credentialed by the National Board for Professional Teaching Standards (NBPTS).

(c) Transcript equivalency of grades between online and traditional classes. Student enrollment and credits awarded shall be made in accordance with regulations jointly approved by the State Board of Education, the Mississippi Community College Board and the Board of Trustees of State Institutions of Higher Learning.

(d) Curriculum standards for online courses.

(e) Classroom "seat time" requirements for online courses.

(f) Accountability for student achievement, including methods to assess online course completion rates.

(7) A teacher, assistant teacher or other employee whose salary and fringe benefits are paid from state funds allocated for the Distance Learning Collaborative Program shall only be classified as a state or local school district employee eligible for state health insurance benefits or membership in the Public Employees' Retirement System, if the person's employer is already a public school district or an agency or instrumentality of the state, and the employee would be eligible for such benefits in the normal course of business.

(8) Funding shall be provided for the Distance Learning Collaborative Program beginning with the 2016-2017 fiscal year subject to appropriation by the Legislature, and the Legislature may appropriate funds to implement the program on a phased-in basis. The State Department of Education may receive and expend contributions and funding from private sources for the administration and implementation of the Distance Learning Collaborative Program. In the initial phase of implementation, the State Department of Education shall award state funds based on a community's capacity, commitment and

need in order to encourage and improve distance learning services in rural areas. The department shall make an annual report to the Legislature and the Governor regarding the effectiveness of the Distance Learning Collaborative Program, and the PEER Committee shall review those reports and other program data and submit an independent evaluation of the program operation and effectiveness to the Legislature and the Governor on or before October 1 of the calendar year before the beginning of the next phased-in period of funding. The State Department of Education shall reserve no more than five percent (5%) of the appropriation in any year for administrative costs. Funds remaining after awards to distance learning collaboratives may be carried over in the following year.

(9) The lead partner of a distance learning collaborative and the local school district shall compile information about online learning programs for high school students to earn college credit and place the information on its website. Examples of information to be compiled and placed on the website include links to providers of approved online learning programs, comparisons among various types of online programs regarding awarding of credit, advantages and disadvantages of online learning programs, and other general assistance and guidance for students, teachers and counselors in selecting and considering online learning programs. Public high schools shall ensure that teachers and counselors have information about online learning programs for high school students to earn college or university credit and are able to assist parents and students in accessing the information. Distance learning collaboratives shall ensure that parents and students have opportunities to learn about online learning programs under this section.

HISTORY: Laws, 2021, ch. 444, § 3, eff from and after July 1, 2021.

§ 37-97-107. Compensation to student-athlete at postsecondary educational institution for use of student-athlete's name, image, or likeness; prohibited acts; certain reasonable limitations on student-athlete's endorsement or promotional activities permitted; professional representation of student-athlete; effect of compensation on financial aid, awards or benefits; disclosure of contracts for compensation; compensation from third-party licensee.

(1) Except as provided for under this article, a postsecondary educational institution shall not uphold any contract, rule, regulation, standard or other requirement that prevents a student-athlete of that institution from earning compensation as a result of the use of the student's name, image, or likeness. Any such contract, rule, regulation standard or other requirement shall be void and unenforceable against the postsecondary educational institution or the student-athlete. Compensation from the use of a student-athlete's name, image, or likeness may not affect the student-athlete's scholarship eligibility, grant-in-aid or other financial aid, awards or benefits, or the student-athlete's intercollegiate athletic eligibility. Nothing in this article is intended to alter any state and federal laws or regulations regarding the award of financial aid at postsecondary educational institutions.

(2) Except as provided for in this article, an athletic association, conference or other group or organization with authority over intercollegiate athletic programs, including, but not limited to, the National Collegiate Athletic Association (NCAA) and the National Junior College Athletic Association (NJCAA), shall not prevent, or otherwise enforce a contract, rule, regulation, standard or other requirement that prevents, a student-athlete of a postsecondary educational institution from earning compensation as a result of the use of the student-athlete's name, image or likeness.

(3) To protect the integrity of its educational mission and intercollegiate athletics program, a postsecondary educational institution may impose reasonable limitations on the dates and time that a student-athlete may participate in endorsement, promotional, social media or other activities related to the license or use of the student-athlete's name, image and likeness. Nothing in this article shall restrict a postsecondary educational institution from exercising its sole discretion to control the authorized use of its marks or logos or to determine a student-athlete's apparel, gear or other wearables during an intercollegiate athletics competition or institution-sponsored event. A student-athlete may not receive or enter into a contract for compensation for the use of his or her name, image or likeness in a way that also uses any registered or

licensed marks, logos, verbiage or designs of a postsecondary institution, unless the institution has provided the student-athlete with written permission to do so prior to execution of the contract or receipt of compensation. If permission is granted, the postsecondary educational institution, by agreement of all parties, may be compensated for the use in a manner consistent with market rates. A postsecondary educational institution may also prohibit a student-athlete from wearing any item of clothing, shoes, or other gear or wearables with the name, logo or insignia of any entity during an intercollegiate athletics competition or institution-sponsored event.

(4) An athletic association, conference or other group or organization with authority over intercollegiate athletics programs, including, but not limited to, the National Collegiate Athletic Association and the National Junior College Athletic Association, shall not enforce a contract, rule, regulation, standard or other requirement that prevents a postsecondary educational institution from participating in an intercollegiate athletics program as a result of the compensation of a student-athlete for the use of the student-athlete's name, image or likeness.

(b) Provide a prospective or current student-athlete or the student-athlete's family compensation in relation to the use of the student-athlete's name, image or likeness.

(6) A postsecondary educational institution, athletic association, conference or other group or organization with authority over intercollegiate athletics programs, including, but not limited to, the National Collegiate Athletic Association and the National Junior College Athletic Association shall not prevent a student-athlete from obtaining professional representation in relation to name, image or likeness, or to secure a name, image and likeness agreement, including, but not limited to, representation provided by athlete agents or legal representation provided by attorneys. A student-athlete shall provide the postsecondary educational institution with written notice at least seven (7) days prior to entering into a representation agreement with any individual for the purpose of exploring or securing compensation for use of the student-athlete's name, image or likeness.

(7) Professional representation obtained by student-athletes must be from persons registered as athlete agents as provided in Section 73-42-1 et seq. of the Uniform Athlete Agent Act. Attorneys who provide legal representation to student-athletes must be licensed to practice law in the State of Mississippi and in good standing with The Mississippi Bar.

(8) Athlete agents representing student-athletes shall comply with the Uniform Athlete Agents Act, Section 73-42-1 et seq., Mississippi Code of 1972,

and the federal Sports Agent Responsibility and Trust Act in 15 USC Sections 7801-7807 in their relationships with student-athletes.

(9) A grant-in-aid, including cost of attendance, and other permissible financial aid, awards or benefits from the postsecondary educational institution in which a student-athlete is enrolled shall not be revoked, reduced, nor the terms and conditions altered, as a result of a student-athlete earning compensation or obtaining professional or legal representation pursuant to this article.

(11) A third-party licensee may not enter into, or offer to enter into, a name, image and likeness agreement with a student-athlete or otherwise compensate a student-athlete for the use of the student-athlete's name, image and likeness rights if a provision of the name, image and likeness agreement or the use of the student-athlete's name, image and likeness rights conflicts with a provision of a contract, rule, regulation, standard or other requirement of the postsecondary educational institution unless such contract or use is expressly approved in writing by the postsecondary educational institution.

(12) No postsecondary educational institution, booster, third-party licensee or any other individual or entity shall provide a prospective or current student-athlete compensation or enter into a name, image and likeness agreement as an inducement for the student-athlete to attend or enroll in a specific institution or group of institutions. Compensation for a student-athlete's name, image, or likeness may not be conditioned on athletic performance or attendance at a particular postsecondary educational institution.

(13) No student-athlete shall enter into a name, image, and likeness agreement or receive compensation from a third-party licensee relating to the name, image or likeness of the student-athlete before the date on which the student-athlete enrolls at a postsecondary educational institution.

(14) No student-athlete shall enter into a name, image, and likeness agreement or receive compensation from a third-party licensee for the endorsement or promotion of gambling, sports betting, controlled substances, marijuana, tobacco or alcohol company, brand or products, alternative or electronic nicotine product or delivery system, performance-enhancing supplements, adult entertainment or any other product or service that is reasonably considered to be inconsistent with the values or mission of a postsecondary educational institution or that negatively impacts or reflects adversely on a postsecondary education institution or its athletic programs, including, without limitation, bringing about public disrepute, embarrassment, scandal, ridicule or otherwise negatively impacting the reputation or the moral or ethical standards of the postsecondary educational institution.

(15) A contract for the use of the a student-athlete's name, image, or likeness which is formed while the student-athlete is participating in an

intercollegiate sport at a postsecondary educational institution may not extend beyond the student-athlete's participation in the sport at the institution.

§ 37-101-15. General powers and duties of board. [Subparagraph (m)(ii) repealed July 1, 2022]

(a) The Board of Trustees of State Institutions of Higher Learning shall succeed to and continue to exercise control of all records, books, papers, equipment, and supplies, and all lands, buildings, and other real and personal property belonging to or assigned to the use and benefit of the board of trustees formerly supervising and controlling the institutions of higher learning named in Section 37-101-1. The board shall have and exercise control of the use, distribution and disbursement of all funds, appropriations and taxes, now and hereafter in possession, levied and collected, received, or appropriated for the use, benefit, support, and maintenance or capital outlay expenditures of the institutions of higher learning, including the authorization of employees to sign vouchers for the disbursement of funds for the various institutions, except where otherwise specifically provided by law.

(b) The board shall have general supervision of the affairs of all the institutions of higher learning, including the departments and the schools thereof. The board shall have the power in its discretion to determine who shall be privileged to enter, to remain in, or to graduate therefrom. The board shall have general supervision of the conduct of libraries and laboratories, the care of dormitories, buildings, and grounds; the business methods and arrangement of accounts and records; the organization of the administrative plan of each

institution; and all other matters incident to the proper functioning of the institutions. The board shall have the authority to establish minimum standards of achievement as a prerequisite for entrance into any of the institutions under its jurisdiction, which standards need not be uniform between the various institutions and which may be based upon such criteria as the board may establish.

(c) The board shall exercise all the powers and prerogatives conferred upon it under the laws establishing and providing for the operation of the several institutions herein specified. The board shall adopt such bylaws and regulations from time to time as it deems expedient for the proper supervision and control of the several institutions of higher learning, insofar as such bylaws and regulations are not repugnant to the Constitution and laws, and not inconsistent with the object for which these institutions were established. The board shall have power and authority to prescribe rules and regulations for policing the campuses and all buildings of the respective institutions, to authorize the arrest of all persons violating on any campus any criminal law of the state, and to have such law violators turned over to the civil authorities.

(d) For all institutions specified herein, the board shall provide a uniform system of recording and of accounting approved by the State Department of Audit. The board shall annually prepare, or cause to be prepared, a budget for each institution of higher learning for the succeeding year which must be prepared and in readiness for at least thirty (30) days before the convening of the regular session of the Legislature. All relationships and negotiations between the State Legislature and its various committees and the institutions named herein shall be carried on through the board of trustees. No official, employee or agent representing any of the separate institutions shall appear before the Legislature or any committee thereof except upon the written order of the board or upon the request of the Legislature or a committee thereof.

(e) For all institutions specified herein, the board shall prepare an annual report to the Legislature setting forth the disbursements of all monies appropriated to the respective institutions. Each report to the Legislature shall show how the money appropriated to the several institutions has been expended, beginning and ending with the fiscal years of the institutions, showing the name of each teacher, officer, and employee, and the salary paid each, and an itemized statement of each and every item of receipts and expenditures. Each report must be balanced, and must begin with the former balance. If any property belonging to the state or the institution is used for profit, the reports shall show the expense incurred in managing the property and the amount received therefrom. The reports shall also show a summary of the gross receipts and gross disbursements for each year and shall show the money on hand at the beginning of the fiscal period of the institution next preceding each session of the Legislature and the necessary amount of expense to be incurred from said date to January 1 following. The board shall keep the annual expenditures of each institution herein mentioned within the income derived from legislative appropriations and other sources, but in case of emergency arising from acts of providence, epidemics, fire or storm with the

written approval of the Governor and by written consent of a majority of the senators and of the representatives it may exceed the income. The board shall require a surety bond in a surety company authorized to do business in this state of every employee who is the custodian of funds belonging to one or more of the institutions mentioned herein, which bond shall be in a sum to be fixed by the board in an amount that will properly safeguard the said funds, the premium for which shall be paid out of the funds appropriated for said institutions.

(f) The board shall have the power and authority to elect the heads of the various institutions of higher learning and to contract with all deans, professors, and other members of the teaching staff, and all administrative employees of said institutions for a term not exceeding four (4) years. The board shall have the power and authority to terminate any such contract at any time for malfeasance, inefficiency, or contumacious conduct, but never for political reasons. It shall be the policy of the board to permit the executive head of each institution to nominate for election by the board all subordinate employees of the institution over which he presides. It shall be the policy of the board to elect all officials for a definite tenure of service and to reelect during the period of satisfactory service. The board shall have the power to make any adjustments it thinks necessary between the various departments and schools of any institution or between the different institutions.

(g) The board shall keep complete minutes and records of all proceedings which shall be open for inspection by any citizen of the state.

(h) The board shall have the power to enter into an energy performance contract, energy services contract, on a shared-savings, lease or lease-purchase basis, for energy efficiency services and/or equipment as prescribed in Section 31-7-14.

(i) The Board of Trustees of State Institutions of Higher Learning, for and on behalf of Jackson State University, is hereby authorized to convey by donation or otherwise easements across portions of certain real estate located in the City of Jackson, Hinds County, Mississippi, for right-of-way required for the Metro Parkway Project.

(j) In connection with any international contract between the board or one (1) of the state's institutions of higher learning and any party outside of the United States, the board or institution that is the party to the international contract is hereby authorized and empowered to include in the contract a provision for the resolution by arbitration of any controversy between the parties to the contract relating to such contract or the failure or refusal to perform any part of the contract. Such provision shall be valid, enforceable and irrevocable without regard to the justiciable character of the controversy. Provided, however, that in the event either party to such contract initiates litigation against the other with respect to the contract, the arbitration provision shall be deemed waived unless asserted as a defense on or before the responding party is required to answer such litigation.

(k) The Board of Trustees of State Institutions of Higher Learning ("board"), on behalf of any institution under its jurisdiction, shall purchase and

maintain business property insurance and business personal property insurance on all university-owned buildings and/or contents as required by federal law and regulations of the Federal Emergency Management Agency (FEMA) as is necessary for receiving public assistance or reimbursement for repair, reconstruction, replacement or other damage to those buildings and/or contents caused by the Hurricane Katrina Disaster of 2005 or subsequent disasters. The board is authorized to expend funds from any available source for the purpose of obtaining and maintaining that property insurance. The board is authorized to enter into agreements with the Department of Finance and Administration, local school districts, community/junior college districts, community hospitals and/or other state agencies to pool their liabilities to participate in a group business property and/or business personal property insurance program, subject to uniform rules and regulations as may be adopted by the Department of Finance and Administration.

(l) The Board of Trustees of State Institutions of Higher Learning, or its designee, may approve the payment or reimbursement of reasonable travel expenses incurred by candidates for open positions at the board's executive office or at any of the state institutions of higher learning, when the job candidate has incurred expenses in traveling to a job interview at the request of the board, the Commissioner of Higher Education or a state institution of higher learning administrator.

(m)(i) The Board of Trustees of State Institutions of Higher Learning is authorized to administer and approve contracts for the construction and maintenance of buildings and other facilities of the state institutions of higher learning, including related contracts for architectural and engineering services, which are paid for with self-generated funds.

(ii) Additionally, the board is authorized to oversee, administer and approve contracts for the construction and maintenance of buildings and other facilities of the state institutions of higher learning, including related contracts for architectural and engineering services, which are funded in whole or in part by general obligation bonds of the State of Mississippi at institutions designated annually by the board as being capable to procure and administer all such contracts. Prior to the disbursement of funds, an agreement for each project between the institution and the Department of Finance and Administration shall be executed. The approval and execution of the agreement shall not be withheld by either party unless the withholding party provides a written, detailed explanation of the basis for withholding to the other party. The agreement shall stipulate the responsibilities of each party, applicable procurement regulations, documentation and reporting requirements, conditions prior to, and schedule of, disbursement of general obligation bond funds to the institution and provisions concerning handling any remaining general obligation bonds at the completion of the project. Such agreement shall not include provisions that constitute additional qualifications or criteria that act to invalidate the designation of an institution as capable of procuring and administering such project. Inclusion of any such provisions may be appealed to the Public Procurement Review

Board. This subparagraph (ii) shall stand repealed from and after July 1, 2022.

JUDICIAL DECISIONS

2. Employment issues.

Although a junior faculty member at a university entered into several employment contracts over a period of time with the Board of Trustees of the Mississippi State Institutions of Higher Learning (IHL), the university was never a party to any of the contracts with junior faculty

member as the authority to enter into those contracts was expressly provided to the IHL, not to the university. Thus, all of the junior faculty member’s contractual claims against the university failed as a matter of law. *Leal v. Univ. of S. Miss.*, 296 So. 3d 660, 2020 Miss. LEXIS 86 (Miss. 2020).

CHAPTER 103.**RESIDENCY AND FEES OF STUDENTS ATTENDING OR
APPLYING FOR ADMISSION TO EDUCATIONAL
INSTITUTIONS**

Sec.

- 37-103-19. Residence status of spouse or child of military personnel assigned to active duty.
- 37-103-25. Tuition and fees for attending state-supported institutions of higher learning and community and junior colleges; waiver of out-of-state tuition under certain circumstances.

§ 37-103-19. Residence status of spouse or child of military personnel assigned to active duty.

(1) Resident status of a spouse or child of a member of the Armed Forces of the United States on extended active duty shall be that of the military spouse or parent for the purpose of attending state-supported institutions of higher learning and community/junior colleges of the State of Mississippi during the time that the military spouse or parent is stationed within the State of Mississippi and shall be continued through the time that the military spouse or parent is stationed in an overseas area with last duty assignment within the State of Mississippi, excepting temporary training assignments en route from Mississippi. Resident status of a spouse or minor child terminates upon reassignment under Permanent Change of Station Orders of the military spouse or parent for duty in the continental United States outside the State of Mississippi, excepting temporary training assignments en route from Mississippi. However, except for spouses who enroll at a professional school or college, spouses or children of members of the Armed Forces who attain Mississippi residency in accordance with the provisions of this subsection and who enroll full time in a Mississippi institution of higher learning or community/junior college shall maintain their residency status so long as they remain enrolled in good standing at a Mississippi institution of higher learning or community/junior college. Enrollment during summer school is not required to maintain such resident status.

(2) The spouse or child of a member of the Armed Forces of the United States who dies or is killed is entitled to pay the resident tuition fee if the spouse or child becomes a resident of Mississippi within one hundred eighty (180) days of the date of death.

(3) If a member of the Armed Forces of the United States is stationed outside Mississippi and the member's spouse or child establishes residence in Mississippi and registers with the Mississippi institution of higher learning or community/junior college at which the spouse or child plans to attend, the institution of higher education or community/junior college shall permit the spouse or child to pay the tuition, fees and other charges provided for Mississippi residents without regard to length of time that the spouse or child has resided in Mississippi.

(4) A member of the Armed Forces of the United States or the child or spouse of a member of the Armed Forces of the United States who is entitled to pay tuition and fees at the rate provided for Mississippi residents under another provision of this section shall maintain resident classification for tuition and fee purposes as long as he or she is continuously enrolled at a Mississippi institution of higher learning or community/junior college. A student may withdraw or may choose not to reenroll for no more than one (1) semester or term while pursuing a degree or certificate without losing resident status only if that student provides sufficient documentation by a physician that the student has a medical condition that requires withdrawal or nonenrollment. For purposes of this subsection, a person is not required to enroll in a summer term to remain continuously enrolled in a degree or certificate program. The person's eligibility to pay tuition and fees at the rate provided for Mississippi residents under this subsection does not terminate because the person is no longer a member of the Armed Forces of the United States or the child or spouse of a member of the Armed Forces of the United States.

(3) The Board of Trustees of State Institutions of Higher Learning may, in its discretion, consider and grant requests to approve institution specific policies permitting the waiver of out-of-state tuition when such an official request is made by the president or chancellor of the institution and when such request is determined by the board to be fiscally responsible and in accordance with the educational mission of the requesting institution.

(4) The board of trustees of any community college or junior college may develop and implement a policy for waiving out-of-state tuition for the college if the policy is determined by the board to be in accordance with the educational mission of the college and if a local industry or business or a state agency agrees to reimburse the college for the entire amount of the out-of-state tuition that will be waived under the policy. State funds shall be allocated and spent only on students who reside within the State of Mississippi. However, associate degree nursing students who reside outside the State of Mississippi may be counted for pay purposes.

Enforcement of traffic rules and regulations; jurisdiction of law enforcement officers appointed by state institutions of higher learning.

§ 37-105-3. Enforcement of traffic rules and regulations; jurisdiction of law enforcement officers appointed by state institutions of higher learning.

(1) The traffic officers duly appointed by the president of any state institution of higher learning, or any peace officer or highway patrolman of this state, are vested with the powers and authority to perform all duties incident to enforcing such rules and regulations as may be enacted under the authority granted in Section 37-105-1, including the arrest of violators.

(2) The peace officers duly appointed by the president of any state institution of higher learning are also vested with the powers and subjected to the duties of a constable for the purpose of preventing all violations of law that occur within five hundred (500) feet of any property owned by the university, if such universities determine that they want such peace officers to exercise such powers and if reasonably determined to have a possible impact on the safety of students, faculty or staff of the university while on said property. If a university determines that it wants such peace officers to exercise such powers, the university may enter into an interlocal agreement with other law enforcement entities specifying the individual and joint duties to be exercised on property within the peace officers' jurisdiction. Provided, however, that nothing in this section shall be interpreted to require action by any such peace officer appointed by such universities to events occurring outside the boundaries of university property, nor shall any such university or its employees be liable for any failure to act to any event occurring outside the boundaries of property owned by the university.

With approval from the Board of Trustees of State Institutions of Higher Learning, the university may enter into an interlocal agreement with other law enforcement entities for the provision of equipment or traffic control duties, however, the duty to enforce traffic regulations and to enforce the laws of the state or municipality off of university property lies with the local police or sheriff's department which cannot withhold its services solely because of the lack of such an agreement.

§ 37-115-25. University Hospital; University of Mississippi Medical Center and University Hospital authorized to enter into faculty physician and staff recruitment agreements.

Editor's Notes — Laws of 2018, ch. 400, § 1, effective March 19, 2018, provides:

“SECTION 1. The Legislature finds and declares:

“(a) A rare disease is defined as a disease that affects fewer than two hundred thousand (200,000) people in the United States. Rare diseases are sometimes called orphan diseases. There are seven thousand (7,000) known rare diseases affecting approximately thirty million (30,000,000) men, women and children in the United States;

“(b) The exact cause for many rare diseases remains unknown. However, eighty percent (80%) of rare diseases are genetic in origin and can be linked to mutations in a single gene or in multiple genes. Those diseases are referred to as genetic diseases. Genetic disease can be passed down from generation to generation, explaining why certain rare diseases run in families. It is also estimated that about half of all rare diseases affect children;

“(c) A person suffering with a rare disease in Mississippi faces a wide range of challenges, including, but not limited to: delays in obtaining a diagnosis; misdiagnosis; shortage of medical specialists who are familiar with, and can provide treatment for, rare diseases; prohibitive cost of treatment; and the inability to access therapies and medication that are used by doctors to treat rare diseases but have not been approved by the federal Food and Drug Administration (FDA) for that specific purpose;

“(d) In recent years, researchers have made considerable progress in developing diagnostic tools and treatment protocols for, and in discovering ways to prevent a variety of, rare diseases. However, much more remains to be done in the areas of rare disease research and the search for and development of new therapeutics; and

“(e) It would be very beneficial to persons in Mississippi with rare diseases and to researchers who are trying to find ways to treat or prevent the occurrence of rare diseases to examine the existing data on rare diseases in Mississippi and compile it in a detailed report, which then could be analyzed and used to educate medical professionals, government agencies and the public about rare diseases as an important public health issue, and to encourage and fund research in the development of new treatments for rare diseases.”

Laws of 2018, ch. 400, § 2, effective March 19, 2018, provides:

“SECTION 2. The University of Mississippi Medical Center (UMMC) as the lead agency, together with the State Department of Health, the Division of Medicaid and the Mississippi Health Information Network (MS-HIN), shall cooperate with each other in preparing a comprehensive report on the state of rare diseases in Mississippi, including the incidence of rare diseases in the state, the status of the rare disease community, and treatment and services provided to persons with rare diseases in the state. The State Department of Health, the Division of Medicaid and the MS-HIN shall provide to UMMC and each other all claims data and patient encounter data relating to the diagnosis and treatment of rare diseases and all related research and documentation relating to rare diseases, which shall be compiled, examined and analyzed in the report. The report shall be presented to the Chairs of the House Public Health and Human Services Committee, Senate Public Health and Welfare Committee, and the House and Senate Medicaid Committees not later than December 1, 2019.”

COMPACT FOR EDUCATION

Sec.

37-135-11. Compact for education.

37-135-13. Filing of copies of bylaws and amendments.

37-135-15. Creation of Mississippi Education Council.

§ 37-135-11. Compact for education.

COMPACT FOR EDUCATION

The Compact for Education is hereby entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:

ARTICLE I PURPOSE AND POLICY

A. It is the purpose of this compact to:

1. Establish and maintain close cooperation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the state and local levels.

2. Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.

3. Provide a clearinghouse of information on matters relating to education problems and how they are being met in different places throughout the nation, so that the executive and legislative branches of state government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

4. Facilitate the improvement of state and local education systems so that all of them will be able to meet adequate and desirable goals in a society that requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

B. It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of education systems and institutions in a manner that will accord with the needs and advantages of diversity among localities and states.

C. The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as

well as in the excellence of its own education systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

ARTICLE II STATE DEFINED

As used in this compact, "state" means a state, territory or possession of the United States, the District of Columbia or the Commonwealth of Puerto Rico.

ARTICLE III THE COMMISSION

A. The Education Commission of the States, hereinafter called "the commission," is hereby established. The commission shall consist of seven (7) members representing each party state. One (1) of such members shall be the Governor of Mississippi; One (1) shall be the Commissioner of Higher Education for the State of Mississippi, or his designee; one (1) shall be the State Superintendent of Public Education, or his designee; and four (4) shall be members of the Mississippi State Legislature, consisting of the Chairman of the Education Committee of the Senate, and the Chairman of the Education Committee of the House of Representatives, the Chairman of the Universities and Colleges Committee of the Senate and the Chairman of the Universities and Colleges Committee of the House of Representatives. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the commission, the guiding principle for the composition of the membership on the commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations, be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one (1) shall be the head of a state agency or institution, designated by the Governor, having responsibility for one or more programs of public education. In addition to the members of the commission representing the party states, there may be not to exceed ten (10) nonvoting commissioners selected by the steering committee for terms of one (1) year. Such commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

B. The members of the commission shall be entitled to one (1) vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority of the commissioners are present. The

commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV and adoption of the annual report pursuant to Article III(J).

C. The commission shall have a seal.

D. The commission shall elect annually, from among its members, a chairman, who shall be a governor; a vice chairman; and a treasurer. The commission shall provide for the appointment of an executive director. The executive director shall serve at the pleasure of the commission, and together with the treasurer and such other personnel as the commission may deem appropriate shall be bonded in such amount as the commission shall determine. The executive director shall be secretary.

E. Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director, subject to the approval of the steering committee, shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the commission, and shall fix the duties and compensation of such personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

F. The commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States or any subdivision or agency of the aforementioned governments, or from any agency of two (2) or more of the party jurisdictions or their subdivisions.

G. The commission may accept for any of its purposes and functions under this compact any and all donations and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States or any other governmental agency, or from any person, firm, association, foundation or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to paragraph F of this article shall be reported in the annual report of the commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant or services borrowed, and the identity of the donor or lender.

H. The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold and convey real and personal property and any interest therein.

I. The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto with the appropriate agency or officer in each of the party states.

J. The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the

preceding year. The commission may make such additional reports as it may deem desirable.

ARTICLE IV POWERS

In addition to authority conferred on the commission by other provisions of the compact, the commission shall have authority to:

A. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

B. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration and instructional methods and standards employed or suitable for employment in public education systems.

C. Develop proposals for adequate financing of education as a whole and at each of its many levels.

D. Conduct or participate in research of the types referred to in this Article in any instance where the commission finds that such research is necessary for the advancement of the purposes and policies of this compact, using fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

E. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

F. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

ARTICLE V COOPERATION WITH FEDERAL GOVERNMENT

A. If the laws of the United States specifically so provide, or if administrative provision is made therefore within the federal government, the United States may be represented on the commission by no more than ten (10) representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, and may be drawn from any one or more branches of the federal government, but no such representative shall have a vote on the commission.

B. The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common education policies of the states, and may advise with any such agencies or officers concerning any matter of mutual interest.

ARTICLE VI COMMITTEES

A. To assist in the expeditious conduct of its business when the full commission is not meeting, the commission shall elect a steering committee of thirty-two (32) members which, subject to the provisions of this compact and consistent with the policies of the commission, shall be constituted and function as provided in the bylaws of the commission. One-fourth ($\frac{1}{4}$) of the voting membership of the steering committee shall consist of governors, one-fourth ($\frac{1}{4}$) shall consist of legislators, and the remainder shall consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two (2) years, except that members elected to the first steering committee of the commission shall be elected as follows: sixteen (16) for one (1) year and sixteen (16) for two (2) years. The chairman, vice chairman and treasurer of the commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the commission at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than two (2) terms as a member of the steering committee, provided that service for a partial term of one (1) year or less shall not be counted toward the two-term limitation.

B. The commission may establish advisory and technical committees composed of state, local and federal officials, and private persons to advise it with respect to any one (1) or more of its functions. Any advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two (2) or more of the party states.

C. The commission may establish such additional committees as its bylaws may provide.

ARTICLE VII FINANCE

A. The commission shall advise the governor or designated officer or officers of each party state of its budget and estimated expenditures for such period as may be required by the laws of that party state. Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states.

B. The total amount of appropriation requests under any budget shall be apportioned among the party states. In making such apportionment, the commission shall devise and employ a formula which takes equitable account of the populations and per-capita income levels of the party states.

C. The commission shall not pledge the credit of any party states. The commission may meet any of its obligations, in whole or in part, with funds

available to it pursuant to Article III(G) of this compact, provided that the commission takes specific action setting aside such funds prior to incurring an obligation to be met, in whole or in part, in such manner. Except where the commission makes funds available to it pursuant to Article III(G) thereof, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

D. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the commission.

E. The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

F. Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

ARTICLE VIII

ELIGIBLE PARTIES; ENTRY INTO AND WITHDRAWAL

A. This compact shall have as eligible parties all states, territories and possessions of the United States, the District of Columbia and the Commonwealth of Puerto Rico. In respect of any such jurisdiction not having a governor, the term "governor," as used in this compact, shall mean the closest equivalent official of such jurisdiction.

B. Any state or other eligible jurisdiction may enter into this compact, and it shall become binding thereon when it has adopted the same, provided that in order to enter into initial effect, adoption by at least ten (10) eligible party jurisdictions shall be required.

C. Adoption of the compact may be either by enactment thereof or by adherence thereto by the governor. During any period when a state is participating in this compact through gubernatorial action, the governor shall appoint those persons who, in addition to himself, shall serve as the members of the commission from his state, and shall provide to the commission an equitable share of the financial support of the commission from any source available to him.

D. Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one (1) year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

ARTICLE IX AMENDMENTS TO THE COMPACT

This compact may be amended by a vote of two-thirds ($\frac{2}{3}$) of the members of the commission present and voting when ratified by the legislatures of two-thirds ($\frac{2}{3}$) of the party states.

ARTICLE X CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the state affected as to all severable matters.

Editor's Notes — Former subsection (n)(ii), which required the State Board of Education to define activities for which, for purposes of determining and reporting attendance for average daily attendance, an absence must be considered an excused absence, was repealed by its own terms, effective July 1, 2016.

§ 37-151-6. Mississippi Adequate Education Program funding.

JUDICIAL DECISIONS

1. Statutory interpretation.

For fully funding Mississippi Adequate Education Program (MAEP) to be an enforceable constitutional right, such duty would have to arise from the language of the Constitution itself, which it does not, or be the only way for the Legislature to satisfy its constitutional obligation; but MAEP is not the only general law the Legislature could pass to fulfill its duty under Miss. Const. art. 8, § 201. Clarksdale Mun. Sch. Dist. v. State, 233 So. 3d 299, 2017 Miss. LEXIS 423 (Miss. 2017).

Any rights school districts sought to enforce were purely statutory because they simply argued that the Legislature did not provide a statutory alternative procedure to fully funding Mississippi Adequate Education Program (MAEP) in the fiscal years 2010 and beyond; the districts

failed to argue that the Legislature could not, as a constitutional matter, provide an alternative to fully funding MAEP. Clarksdale Mun. Sch. Dist. v. State, 233 So. 3d 299, 2017 Miss. LEXIS 423 (Miss. 2017).

School districts were not entitled to the difference between what they received and what they claimed they should have received had the Legislature fully funded the Mississippi Adequate Education Program (MAEP) because the statute was not mandatory since it did not obligate the Governor to sign a bill fully funding MAEP; with full knowledge of the constitutional legislative process, the legislature failed in the statute to address the Governor's role. Clarksdale Mun. Sch. Dist. v. State, 233 So. 3d 299, 2017 Miss. LEXIS 423 (Miss. 2017).

EDUCATION TECHNOLOGY ENHANCEMENT

§§ 37-151-15 through 37-151-23. Repealed.

Editor's Notes — Laws of 2021, ch. 472, § 12, effective April 19, 2021, provides: “SECTION 12. Not later than thirty (30) days after the effective date of this act, the State Fiscal Officer shall transfer the full balance in the State Public School Education Technology Fund into the Capital Expense Fund.

DISTRIBUTION OF FUNDS

Sec.

37-151-103. Payment of funds.

§ 37-151-103. Payment of funds.

(1) Funds due each school district and charter school under the terms of this chapter from the Adequate Education Program Fund shall be paid in the following manner: Two (2) business days prior to the last working day of each month there shall be paid to each school district and charter school, by electronic funds transfer, one-twelfth (1/12) of the funds to which the district or charter school is entitled from funds appropriated for the Adequate Education Program Fund. However, in December those payments shall be made on December 15th or the next business day after that date. All school districts shall process a single monthly payroll for licensed employees and may process a single monthly or a semimonthly payroll for nonlicensed employees, in the discretion of the local school board, with electronic settlement of payroll checks secured through direct deposit of net pay for all school district employees. In addition, the State Department of Education may pay school districts and charter schools from the common school fund and the Adequate Education Program Fund on a date earlier than provided for by this section if it is determined that it is in the best interest of school districts and charter schools to do so.

Provided, however, that if the cash balance in the State General Fund is not adequate on the due date to pay the amounts due to all school districts and charter schools in the state as determined by the State Superintendent of Education, the State Fiscal Officer shall not transfer said funds payable to any school district or districts or charter schools until money is available to pay the amount due to all districts and charter schools.

(2) Notwithstanding any provision of this chapter or any other law requiring the number of children in average daily attendance or the average daily attendance of transported children to be determined on the basis of the preceding year, the State Board of Education is hereby authorized and empowered to make proper adjustments in allotments in cases where major changes in the number of children in average daily attendance or the average daily attendance of transported children occurs from one year to another as a result of changes or alterations in the boundaries of school districts, the sending of children from one county or district to another upon a contract basis, the termination or discontinuance of a contract for the sending of children from one county or district to another, a change in or relocation of attendance centers, or for any other reason which would result in a major decrease or increase in the number of children in average daily attendance or the average daily attendance of transported children during the current school year as compared with the preceding year.

(3) In the event of an inordinately large number of absentees in any school district or charter school as a result of epidemic, natural disaster, or any concerted activity discouraging school attendance, then in such event school attendance for the purposes of determining average daily attendance under the adequate education program shall be based upon the average daily attendance for the preceding school year for such school district or charter school.

(4) The State Department of Education shall hold school districts harmless for each school district's average daily attendance calculation for the 2020-2021 scholastic year. For purposes of determining average daily attendance for the 2020-2021 scholastic year, the State Department of Education shall use each school district's average daily attendance for the 2019-2020 scholastic year if it is greater than the school's average daily attendance for the 2020-2021 scholastic year.

§ 37-159-5. Reimbursement of relocation expenses; teachers moving to geographical areas short of teachers; residency requirements [Repealed effective July 1, 2024].

The State Board of Education shall prescribe rules and regulations which, subject to available appropriations, allow for reimbursement to the state licensed teachers, from both in state and out of state, who enter into a contract for employment in a school district situated within a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education, for the expense of moving when the employment necessitates the relocation of the teacher to a different geographical area than that in which the teacher resides before entering into such contract. In order to be eligible for the reimbursement, the teacher must apply to the local district and the district must obtain the prior approval from the department for reimbursement before the relocation occurs. If the reimbursement is approved, the department shall provide funds to the school district to reimburse the teacher an amount not to exceed One Thousand Dollars (\$1,000.00) for the documented actual expenses incurred in the course of relocating, including the expense of any professional moving company or persons employed to assist with the move, rented moving vehicles or equipment, mileage in the amount authorized for state employees under Section 25-3-41 if the teacher used his personal vehicle or vehicles for the move, meals and such other expenses associated with the relocation in accordance with the department’s established rules and regulations. No teacher may be reimbursed for moving expenses under this section on more than one (1) occasion.

Nothing in this section shall be construed to require the actual residence to which the teacher relocates to be within the boundaries of the school district

which has executed a contract for employment with the teacher or within the boundaries of the area designated by the State Board of Education as the critical teacher shortage area in order for the teacher to be eligible for reimbursement for his moving expenses. However, teachers must relocate within the boundaries of the State of Mississippi.

§ 37-159-9. University Assisted Teacher Recruitment and Retention Grant Program; geographical areas short of teachers; eligibility for participation; funding; reimbursement of expenses; failure to comply with commitment [Repealed effective July 1, 2024].

(1) There is established the University Assisted Teacher Recruitment and Retention Grant Program within the State Department of Education. The purposes of the program shall be to attract additional qualified teachers to those geographical areas of the state where there exists a critical shortage of

teachers and to retain the qualified teachers already serving as licensed teachers in geographical critical teacher shortage areas by making available scholarships to persons working towards a Master of Education degree or an Educational Specialist degree at an institution of higher learning whose teacher education program is approved by the State Board of Education.

(2) Any institution of higher learning in the State of Mississippi which offers a Master of Education degree or an Educational Specialist degree may apply to the department for participation in the program. As part of the program, participating institutions shall collaborate with the Mississippi Teacher Center to identify, recruit and place teacher education graduates, from both within the state and out of state, in school districts situated within those areas of the state where there exists a critical shortage of teachers, as designated by the State Board of Education.

(3) The State Department of Education shall provide funds to participating institutions of higher learning for the purpose of awarding scholarships to qualified persons pursuing a Master of Education degree or an Educational Specialist degree at such institutions while rendering service to the state as a licensed teacher in a school district in a geographical area of the state where there exists a critical shortage of teachers, as approved by the State Board of Education. The financial scholarship shall be applied to the total cost for tuition, books, materials and fees at the institution in which the student is enrolled, not to exceed an amount equal to the highest total cost of tuition, books, materials and fees assessed by a state institution of higher learning during that school year. Teachers who relocate within Mississippi from out of state in order to participate in the program shall be classified as residents of the state for tuition purposes.

(4) Students awarded financial scholarships under the University Assisted Teacher Recruitment and Retention Grant Program may receive such awards for a maximum of four (4) school years; however, the maximum number of awards which may be made shall not exceed the length of time required to complete the number of academic hours necessary to obtain a Master of Education degree or an Educational Specialist degree. Financial scholarships under the program shall not be based upon an applicant's eligibility for financial aid.

(5) Persons relocating to a geographical area of the state where there exists a critical shortage of teachers, as approved by the State Board of Education, to participate in the University Assisted Teacher Recruitment and Retention Grant Program shall be eligible for reimbursement for their moving expenses to the critical teacher shortage area from the State Board of Education. The State Board of Education shall promulgate rules and regulations necessary for the administration of the relocation expense reimbursement component of the University Assisted Teacher Recruitment and Retention Grant Program.

(6) Subject to the availability of funds, the State Board of Education may provide for professional development and support services as may be necessary for the retention of teachers participating in the program in those geographical areas of the state where there exists a critical shortage of teachers.

(7) Any person participating in the program who fails to complete a program of study that will enable that person to obtain a Master of Education degree or Educational Specialist degree shall become liable immediately to the State Board of Education for the sum of all awards made to that person under the program, plus interest accruing at the current Stafford Loan rate at the time the person abrogates his participation in the program.

(8) As a condition for participation in the program, a teacher shall agree to employment as a licensed teacher in a school district located in a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education, for a period of not less than three (3) years, which shall include those years of service rendered while obtaining the Master of Education degree or Educational Specialist degree. However, for any person who obtained a Baccalaureate degree in education with a financial scholarship under the Critical Needs Teacher Scholarship Program and who entered the University Assisted Teacher Recruitment and Retention Grant Program before rendering service as a teacher, the period of employment for the purposes of this subsection shall be two (2) years, in addition to the employment commitment required under the Critical Needs Teacher Scholarship Program. Service rendered by a participant as a licensed teacher in a school district in a geographical critical teacher shortage area before that teacher becomes a participant in the program may not be considered to fulfill the employment commitment required under this subsection. Any person failing to comply with this employment commitment in any required school year shall immediately be in breach of contract and become liable immediately to the State Department of Education for the sum of all scholarships awarded and relocation expenses granted to that person, less one-third (1/3) of the amount of that sum for each year that service was rendered, or for those persons whose required period of employment is two (2) years, less one-half (1/2) of the amount of that sum for each year that service was rendered, plus interest accruing at the current Stafford Loan rate at the time the breach occurs, except in the case of a deferral for cause by the State Board of Education when there is no employment position immediately available upon the teacher's obtaining of the Master of Education degree or Educational Specialist degree. After the period of such deferral, the person shall begin or resume the required teaching duties or shall become liable to the board under this subsection. If a claim for repayment under this subsection is placed in the hands of an attorney for collection after default, then the obligor shall be liable for an additional amount equal to a reasonable attorney's fee.

(9) All funds received by the State Department of Education from the repayment of scholarship awards and relocation expenses by program participants shall be deposited in the Mississippi Critical Teacher Shortage Fund.

(10) The State Board of Education shall promulgate rules and regulations necessary for the proper administration of the University Assisted Teacher Recruitment and Retention Grant Program.

It is the intent of the Legislature that the Mississippi Virtual Public School established under this section provides Mississippi families with an alternative choice to access additional educational resources in an effort to improve academic achievement. The Mississippi Virtual Public School must be recognized as a public school and provide equitable treatment and resources as are other public schools in the state. Private providers, overseen by the State Department of Education, may be selected by the State Board of Education to administer, manage or operate virtual school programs in this state, including the total operation of the Mississippi Virtual Public School Program. Any private provider chosen to provide services under the provisions of this subsection shall be chosen through the Mississippi Online Course Application Process.

(3) Nothing in this section may be interpreted as precluding the use of

computer- and Internet-based instruction for students in a virtual or remote setting utilizing the Mississippi Virtual Public School.

(4) As used in this section, the following words and phrases have the meanings respectively ascribed unless the context clearly requires otherwise:

(a) "Mississippi Virtual Public School" means a public school in which the state uses technology in order to deliver instruction to students via the Internet in a virtual or remote setting.

(b) "Sponsor" means the public school district is responsible for the academic process for each student, including, but not limited to, enrollment, awarding of credit and monitoring progress.

(5)(a) The State Board of Education shall establish the Mississippi Virtual Public School beginning in school year 2006-2007.

(b) Students who enroll in the Mississippi Virtual Public School may reside anywhere in the State of Mississippi.

(6) Subject to appropriation, the Mississippi Virtual Public School shall provide to each student enrolled in the school all necessary instructional materials. Subject to appropriation, the sponsored school must ensure that each student is provided access to the necessary technology, such as a computer and printer, and to an Internet connection for schoolwork purposes.

(7) The Mississippi Department of Education shall have approval authority for all coursework and policy of the Mississippi Virtual Public School.

(8) Each teacher employed by or participating in the delivery of instruction through the Mississippi Virtual Public School must meet all qualifications for licensure in the State of Mississippi.

(9) Any student who meets state residency requirements may enroll in the Mississippi Virtual Public School.

(10) Enrollment in the Mississippi Virtual Public School shall be free of charge to students. The costs associated with the operations of the virtual school must be shared by the State Department of Education, subject to appropriation, and/or the local school districts. Once the State Department of Education appropriation and the local school district budgeted funds for Mississippi Virtual Public School have been expended and students choose to enroll in online courses, the costs of the online courses may be the responsibility of the students' parents or guardians.

- (a) "Board" means the State Board of Education.
- (b) "Department" means the State Department of Education.
- (c) "Dyslexia" means a specific learning disability that is neurological in origin, characterized by difficulties with accurate and fluent word recognition and poor spelling and decoding abilities, which typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction, and secondary consequences which may include problems in reading comprehension and reduced reading experience that can impede growth of vocabulary and background knowledge.
- (d) "Dyslexia therapy" means an appropriate specialized dyslexia instructional program that is delivered by a Mississippi Department of Education licensed dyslexia therapist which is scientific, research-based, Orton-Gillingham based, and is offered in a small group setting to teach students the components of reading instruction which include:

These components shall be taught using instructional approaches that include explicit, direct instruction which is systematic, sequential and cumulative, following a logical plan of presenting the alphabetic principle commensurate with the students' needs, with no assumption of prior skills or language knowledge; individualized to meet the specific learning needs of each individual student in a small group setting; intensive, highly concentrated instruction that maximizes student engagement and uses specialized methods and materials; meaning-based instruction directed toward purpose-

(g) "School" means any public or state accredited nonpublic special purpose school that provides a specific learning environment that provides comprehensive dyslexia therapy instruction delivered by dyslexia therapists licensed by the department providing highly qualified education and intervention services to children diagnosed with the primary learning disability of dyslexia.

§ 37-173-7. Student eligibility for scholarship; duration of scholarship.

(a) Enrolled in a school operating for the purpose of providing educational services to youth in Department of Juvenile Justice commitment programs;

(b) Participating in a homeschool education program;

(c) Participating in a virtual school, correspondence school, or distance learning program that receives state funding under the student's participation unless the participation is limited to no more than two (2) courses per school year;

(d) Not having regular and direct contact with his or her private school teachers at the school's physical location.

(2)(a) For purposes of continuity of educational choice, a Mississippi Dyslexia Therapy Scholarship shall remain in force until the student returns to a public school or completes Grade 12, whichever occurs first.

(b) Upon reasonable notice to the department and the school district, the student's parent or legal guardian may remove the student from the nonpublic school and place the student in a public school in accordance with this section.

(b) If the parent or legal guardian chooses a public school within the district, the school district shall provide transportation to the public school selected by the parent or legal guardian. However, if the parent or legal guardian chooses a public school in another district, the parent or legal guardian is responsible to provide transportation to the school of choice.

These provisions do not prohibit a parent or legal guardian of a student diagnosed with dyslexia, at any time, from choosing the option of a Mississippi Dyslexia Therapy Scholarship which would allow the student to attend another public school or nonpublic special purpose school.

(2) If the parent or legal guardian chooses the nonpublic school option and the student is accepted by the nonpublic school pending the availability of a space for the student, the parent or legal guardian of the student must notify the department thirty (30) days before the first scholarship payment and before entering the nonpublic school in order to be eligible for the scholarship when a space becomes available for the student in the nonpublic school.

(3) The parent or legal guardian of a student may choose, as an alternative, to enroll the student in and transport the student to a public school in an adjacent school district which has available space and has a program with dyslexia services that provide daily dyslexia therapy sessions delivered by a department licensed dyslexia therapist, and that school district shall accept the student and report the student for purposes of the district's funding under the Mississippi Adequate Education Program.

(2) The screening of all compulsory-school-age children enrolled in each local public school district for dyslexia required by subsection (1)(a) of this section shall in no manner nullify or defeat the requirements of the pilot programs adopted by the State Department of Education to test certain students enrolled or enrolling in public schools for dyslexia under Section 37-23-15.

(1) Each local school district shall make an initial determination of whether a student diagnosed with dyslexia meets the eligibility criteria under the Individuals with Disabilities Education Act (IDEA) to have an Individualized Education Program developed and to receive services. If a student's diagnosis of dyslexia does not result in an IDEA eligibility determination then the district must proceed with their process for determining if the student is eligible for a 504 Plan under the Rehabilitation Act based on the presumption that proficiency in spelling, reading and writing are essential for the student to achieve appropriate educational progress. Each local school district shall develop interventions and strategies to address the needs of those students diagnosed with dyslexia which provide the necessary accommodations to enable the student to achieve appropriate educational progress. The interventions and strategies developed shall include, but not be limited to, the use of the 3-Tier Instructional Model and the utilization of provisions of the IDEA and 504 Plan to address those needs.

(2) The State Department of Education shall require public school districts to conduct four (4) hours of in-service training in dyslexia and related disorder awareness education every three (3) years for all licensed educators and paraprofessionals responsible for instruction. § 37-177-1. Literacy-based Promotion Act established; purpose; determination of a reading deficiency in students in grades K through 3.

(1) There is established an act prohibiting social promotion to be known as the "Literacy-Based Promotion Act," the purpose of which is to improve the reading skills of Kindergarten and First- through Third-Grade students enrolled in the public schools so that every student completing the Third Grade is able to read at or above grade level. It is the intent of the Legislature, in establishing this act, to ensure that: each Kindergarten and First- through Third-Grade student's progression is determined, in part, upon the student's proficiency in reading; the policies of local school boards facilitate this proficiency; and each student and the student's parent or legal guardian is informed of the student's academic progress.

(2) Each public school student who exhibits a substantial deficiency in reading at any time, as demonstrated through performance on a reading screener approved or developed by the State Department of Education or through locally determined assessments and teacher observations conducted in Kindergarten and Grades 1 through 3 or through statewide end-of-year assessments or approved alternate yearly assessments in Grade 3, must be given intensive reading instruction and intervention immediately following the identification of the reading deficiency. The intensive reading instruction and intervention must be documented for each student in an individual reading plan, which includes, at a minimum, the following:

- (a) The student's specific, diagnosed reading skill deficiencies as determined (or identified) by diagnostic assessment data;
- (b) The goals and benchmarks for growth;

- (c) How progress will be monitored and evaluated;
- (d) The type of additional instructional services and interventions the student will receive;
- (e) The research-based reading instructional programming the teacher will use to provide reading instruction, addressing the areas of phonemic awareness, phonics, fluency, vocabulary and comprehension;
- (f) The strategies the student's parent is encouraged to use in assisting the student to achieve reading competency; and
- (g) Any additional services the teacher deems available and appropriate to accelerate the student's reading skill development.

(3) The universal reading screener or locally determined reading assessment may be given in the first thirty (30) days of the school year and repeated if indicated at midyear and at the end of the school year to determine student progression in reading in Kindergarten through Third Grade. If it is determined that the student continues to have a reading deficiency, the student must be provided with continued intensive reading instruction and intervention by the school district until the reading deficiency is remedied. A student exhibiting continued reading deficiency with continued intensive interventions should be considered for exceptional criteria evaluation.

(4) A Kindergarten or First-, Second- or Third-Grade student identified with a deficiency in reading must be provided intensive interventions in reading to ameliorate the student's specific reading deficiency, as identified by a valid and reliable diagnostic assessment. The intensive intervention must include effective instructional strategies, and appropriate teaching methodologies necessary to assist the student in becoming a successful reader, able to read at or above grade level, and ready for promotion to the next grade. A Kindergarten, First-, Second- or Third-Grade student identified with a reading deficiency or not promoted may be placed in a transition class.

Amendment Notes — The 2016 amendment hyphenated "First," "Second" and "Third Grade" throughout; and in (2), added the last sentence of the introductory paragraph, and added (a) through (g).

§ 37-177-3. Written notification to parent or guardian of determination of reading deficiency; contents of notification.

Immediately upon the determination of a reading deficiency, and subsequently with each quarterly progress report until the deficiency is remediated, the parent or legal guardian of a Kindergarten or First-, Second- or Third-Grade student who exhibits a substantial deficiency in reading must be notified in writing by the student's teacher of the following:

- (a) That the student has been identified as having a substantial deficiency in reading;

(b) A description of the services that the school district currently is providing to the student;

(c) A description of the proposed supplemental instructional services and supports that are designed to remediate the identified area of reading deficiency which the school district plans to provide the student, as outlined in the student's individual reading plan;

(d) That if the student's reading deficiency is not remediated before the end of the student's Third-Grade year, the student will not be promoted to Fourth Grade unless a good cause exemption specified under Section 37-177-11 is met;

(e) Strategies for parents and guardians to use in helping the student to succeed in reading proficiency; and

(f) That while the state annual accountability assessment for reading in Third Grade is the initial determinant, it is not the sole determiner of promotion and that approved alternative standardized assessments are available to assist the school district in knowing when a child is reading at or above grade level and ready for promotion to the next grade.

HISTORY: Laws, 2013, ch. 495, § 2; Laws, 2016, ch. 451, § 2, eff from and after July 1, 2016.

Amendment Notes — The 2016 amendment hyphenated "First," "Second" and "Third Grade" throughout; and added "as outlined in the student's individual reading plan" at the end of (c).

§ 37-177-5. Establishment of Mississippi Reading Panel; purpose; composition.

The State Department of Education shall establish a Mississippi Reading Panel to collaborate with the State Department of Education in recommending appropriate equitable alternative standardized assessments and cut scores to be used to determine promotion to the Fourth Grade of those Third-Grade students who did not score at the required achievement level on the state annual accountability assessment, as outlined in Section 37-177-9, or who, for unforeseen circumstances, were unable to take the assessment. The panel should have knowledge and input in the adoption or development of a universal screener for required use only in select schools most in need for the reading intervention program to identify reading deficiencies and determine progress. A suggestive list of no less than four (4) screening assessments should be available to schools not selected for the critical reading intervention program taking into consideration those screening assessments already being used satisfactorily in Mississippi elementary schools. An approved alternative standardized reading assessment may be used in years when the state is transitioning to a new state annual accountability assessment. The panel shall consist of six (6) members as follows: the State Superintendent of Education, or his/her designee, who will chair the committee; the Chair of the House Education Committee, or his designee; the Chairman of the Senate Education Committee, or his designee; one (1) member appointed by the Governor; and

two (2) additional members appointed by the State Superintendent of Education.

HISTORY: Laws, 2013, ch. 495, § 3; Laws, 2016, ch. 451, § 3, eff from and after July 1, 2016.

Amendment Notes — The 2016 amendment, in the first sentence, hyphenated “Third Grade,” substituted “did not score at the required” for “scored at the lowest” and inserted “as outlined in Section 37-177-9”; and substituted “used in years when the state is transitioning to a new state annual accountability assessment” for “used in 2014-2015 in the transition to common core standardization of testing” in the next-to-last sentence.

§ 37-177-7. Selection of schools for reading intervention program; supervisory position in each school responsible for implementation of reading intervention program; use of data coaches pilot programs in certain “C” level or low performing districts or schools.

The State Department of Education shall:

(a) Select schools most in need for the reading intervention program and create criteria for selection for participation based on number and percentages of students scoring in the lowest two (2) achievement levels on state-adopted yearly reading assessments, screening results, and other relevant data;

(b) Assign a supervisory position within each school to be responsible for the faithful implementation of the Reading Intervention Program; and

(c) Subject to legislative appropriation, the Mississippi Department of Education shall conduct a program with willing “C” level or low-performing districts and/or schools. The program shall focus on the use of data coaches to improve reading and literacy, to determine the effectiveness of intense data-focused professional development, provide expert support in literacy and early reading instruction but it shall not necessarily be limited to literacy. Data coaches should be experts in both pedagogy and data analysis who facilitate professional learning community meetings, and provide observation and feedback, to help teachers and district leaders build skills in using data to inform instruction. Schools and districts selected by the department to participate in the program shall agree to involve the school and district leadership team as directed by the department. The Mississippi Department of Education is authorized to include pre-school programs it deems appropriate. The department is authorized to contract with a private sector provider to implement the program and work in partnership with four-year institutions of higher learning to develop and implement the program.

HISTORY: Laws, 2013, ch. 495, § 4; Laws, 2014, ch. 536, § 1; Laws, 2016, ch. 473, § 1, eff from and after July 1, 2016.

Amendment Notes — The 2016 amendment, in (c), in the first sentence, substituted “Subject to legislative appropriation” for “Beginning with the 2014-2015 school year,”

and deleted “pilot” preceding “program” and “in a geographically concise region” at the end, substituted “program” for “pilot” in the second sentence, added the fourth and fifth sentences, rewrote the former next-to-last sentence, which read: “The department is authorized to contract with a private sector provider to implement the pilot and work in partnership with a four-year institution of higher learning that has a center for literacy instruction to develop and implement the pilot,” and deleted the former last sentence, which read: “The department shall also work in consultation with the Reading Panel regarding the development and implementation of the pilot program.”

§ 37-177-9. Assignment of grade level based on student’s age or other social promotion prohibited; promotion to grade 4 prohibited unless reading deficiency remedied before end of grade 3.

A public school student may not be assigned a grade level based solely on the student’s age or any other factors that constitute social promotion.

Beginning in the 2014-2015 school year, if a student’s reading deficiency is not remedied by the end of the student’s Third-Grade year, as demonstrated by the student scoring at the lowest achievement level in reading on the state annual accountability assessment or on an approved alternative standardized assessment for Third Grade, the student shall not be promoted to Fourth Grade.

Beginning in the 2018-2019 school year, if a student’s reading deficiency is not remedied by the end of the student’s Third-Grade year, as demonstrated by the student scoring above the lowest two (2) achievement levels in reading on the state annual accountability assessment or on an approved alternative standardized assessment for Third Grade, the student shall not be promoted to Fourth Grade.

HISTORY: Laws, 2013, ch. 495, § 5; Laws, 2016, ch. 451, § 4, eff from and after July 1, 2016.

Amendment Notes — The 2016 amendment hyphenated “Third Grade” the first time it appears in the second paragraph; and added the last paragraph.

§ 37-177-11. Good cause exemption for promotion to grade 4 of student not meeting academic requirements.

(1) A Third-Grade student who does not meet the academic requirements for promotion to the Fourth Grade may be promoted by the school district only for good cause. Good cause exemptions for promotion are limited to the following students:

(a) Limited English proficient students who have had less than two (2) years of instruction in an English Language Learner program;

(b) Students with disabilities whose individual education plan (IEP) indicates that participation in the statewide accountability assessment program is not appropriate, as authorized under state law;

(c) Students with a disability who participate in the state annual accountability assessment and who have an IEP or a Section 504 plan that

reflects that the individual student has received intensive remediation in reading for more than two (2) years but still demonstrates a deficiency in reading or previously was retained in Kindergarten or First, Second or Third Grade;

(d) Students who demonstrate an acceptable level of reading proficiency on an alternative standardized assessment approved by the State Board of Education; and

(e) Students who have received intensive intervention in reading for two (2) or more years but still demonstrate a deficiency in reading and who previously were retained in Kindergarten or First, Second or Third Grade for a total of two (2) years and have not met exceptional education criteria. A student who is promoted to Fourth Grade with a good cause exemption shall be provided an individual reading plan as described in Section 37-177-1(2), which outlines intensive reading instruction and intervention informed by specialized diagnostic information and delivered through specific reading strategies to meet the needs of each student so promoted. The school district shall assist schools and teachers in implementing reading strategies that research has shown to be successful in improving reading among students with persistent reading difficulties.

(2) A request for good cause exemptions for a Third-Grade student from the academic requirements established for promotion to Fourth Grade must be made consistent with the following:

(a) Documentation must be submitted from the student's teacher to the school principal which indicates that the promotion of the student is appropriate and is based upon the student's record. The documentation must consist of the good cause exemption being requested and must clearly prove that the student is covered by one (1) of the good cause exemptions listed in subsection (1)(a) through (e) of this section.

(b) The principal shall review and discuss the recommendations with the teacher and parents and make a determination as to whether or not the student should be promoted based on requirements set forth in this chapter. If the principal determines that the student should be promoted, based on the documentation provided, the principal must make the recommendation in writing to the school district superintendent, who, in writing, may accept or reject the principal's recommendation. The parents of any student promoted may choose that the student be retained for one (1) year, even if the principal and district superintendent determines otherwise.

HISTORY: Laws, 2013, ch. 495, § 6; Laws, 2016, ch. 451, § 5, eff from and after July 1, 2016.

Amendment Notes — The 2016 amendment, in (1), hyphenated "Third Grade" in the first sentence of the introductory paragraphs of (1) and (2); substituted "reading or previously" for "reading and previously" in (1)(c); and inserted "an individual reading plan as described in Section 37-177-1(2), which outlines" in the second sentence of (1)(e).

§ 37-177-13. Actions required of school districts for grade 3 students not promoted to grade 4.

Beginning in the 2014-2015 school year, each school district shall take the following actions for retained Third-Grade students:

(a) Provide Third-Grade students who are not promoted with intensive instructional services, progress monitoring measures, and supports to remediate the identified areas of reading deficiency, as outlined in the student's individual reading plan, including a minimum of ninety (90) minutes during regular school hours of daily, scientifically research-based reading instruction that includes phonemic awareness, phonics, fluency, vocabulary and comprehension, and other strategies prescribed by the school district, which may include, but are not limited to:

- (i) Small group instruction;
- (ii) Reduced teacher-student ratios;
- (iii) Tutoring in scientifically research-based reading services in addition to the regular school day;
- (iv) The option of transition classes;
- (v) Extended school day, week or year; and
- (vi) Summer reading camps.

(b) Provide written notification to the parent or legal guardian of any Third-Grade student who is retained that the student has not met the proficiency level required for promotion and the reasons the student is not eligible for a good cause exemption. The notification must include a description of proposed interventions and supports that will be provided to the child to remediate the identified areas of reading deficiency, as outlined in the student's individual reading plan. This notification must be provided to the parent or legal guardian in writing, in a format adopted by the State Board of Education in addition to report cards given by the teacher.

(c) Provide Third-Grade students who are retained with a high-performing teacher, as determined by student performance data, particularly related to student growth in reading, above-satisfactory performance appraisals, and/or specific training relevant to implementation of this chapter.

(d) Provide parents and legal guardians of Third-Grade students with a "Read at Home" plan outlined in a parental contract, including participation in regular parent-guided home reading.

Editor's notes — Laws of 2020, ch. 489, § 13, effective July 9, 2020, provides:

"SECTION 13. If any section, paragraph, sentence, clause, phrase, or any part of this act is declared to be in conflict with federal law, or if for any reason is declared to be invalid or of no effect, the remaining sections, paragraphs, sentences, clauses, phrases or parts thereof shall be in no matter affected thereby but shall remain in full force and effect."

§ 37-183-5. Postsecondary Education COVID-19 Mitigation Relief Program established; purpose; application; award and allocation of funds.

(1) There is established the Postsecondary Education COVID-19 Mitigation Relief Program for public and private postsecondary educational institutions to be administered by the department, which shall set the dates and deadlines for applying for an award under this section. The program is established for the purpose of providing reimbursement to eligible postsecondary educational institutions for unreimbursed expenses directly related to COVID-19. The department shall establish such rules and regulations as it deems necessary and proper to carry out the purposes and intent of this section.

(2) The department shall approve applications for reimbursement from each eligible postsecondary educational institution. For each eligible postsecondary educational institution, the department shall only award funds equivalent to the lesser of the total of itemized eligible COVID-19-related expenses or the maximum allowable for each institution based on the total number of students enrolled during the 2019-2020 scholastic year, who were actively enrolled as a part-time or full-time student on March 1, 2020, as determined by the student allocation formulas specified in subsections (3) and (4) of this section. To qualify for reimbursement, each postsecondary educational institution's application for reimbursement must, in addition to specifying the amount of reimbursement requested, also include an itemized expense report that evidences the eligible expenses incurred by the eligible postsecondary educational institution.

(3)(a) Each four-year postsecondary educational institution shall be eligible to be reimbursed at an amount equivalent to Five Hundred Sixty-eight

Dollars (\$568.00) per student actively enrolled as a part-time or full-time student on March 1, 2020. Each four-year postsecondary educational institution's reimbursement shall be determined upon the submission of the itemized expense report, required under subsection (2) of this section. Failure of a four-year postsecondary educational institution to submit the itemized expense report will subject the institution to forfeiture of any allotted funds designated for the specific institution's eligible maximum reimbursement amount.

(b) Upon a showing of itemized eligible COVID-19-related expenses, the eligible maximum reimbursement amount allowed for each four-year postsecondary educational institution, as determined by the student allocation formula prescribed in paragraph (a) of this subsection, shall be as follows:
